### LOOKING OUT FOR THE ENVIRONMENT

#### Replace Water-Guzzling Toilets and Receive \$100 Utility Credit

Did you know that toilet flushing accounts for about a quarter of a home's indoor water use? Old-style toilets can use at least seven to eight litres more per flush than newer models. Coquitlam is offering homeowners a \$100 credit on their utility bill for replacing toilets that flush at least 13 litres of water with qualifying new single-flush or dual-flush models – that's a water-use reduction of approximately 30% per flush. The toilet rebate program is a part of Coquitlam's 2021 Enhanced Water Conservation Strategy, which helps conserve water and reduce the pressure on the City's water and sewer system. Visit [coquitlam.ca/toiletrebate](http://coquitlam.ca/toiletrebate) for more details and to complete an online application form.
